

# LAMINATION MACHINE . MR 900 HK

Lamination machine. Digital and analog instruments with visual control of the working parameters, and advise of eventual errors.

Possibility to laminate full width fabrics up to 900 mm, and to laminate cut shapes.

With specific support and guides, you can laminate tapes and/or produce folded stripes.

## LAMINATION MACHINE - TECHNICAL INFO

Machine dimension - mm.	3150x1460x1240 h.
Voltage	380V/50HZ - 3P
Heating power	12 KW
Motor Power	200 w
Lamination width	900 mm
Speed	from 0 to 8 m/min
Maximum pressure	4 kg/cm <sup>2</sup>
Temperature	0-200° C
Weight - <i>Peso</i>	450 kg

### MACHINE KEY FEATURES

- .Automatic conveyor belt alignment system
- .Equipped with brand frequency modulator for speed regulation
- .Front and back/up and down heating zone with independent temperature setting
- .Large high temperature silicone coated pressure roller with stable pressure
- . Strong exhausted fan as cooling system, which ensure the laminated fabric to be cooled down immediately with the best effect

### TECHNICALL INFO FOR INSTALLATION

#### Dimension and weight

3150 x 1460 x H. 1240 mm - Kg 450

#### Pneumatic connection - all connections on the right side

Fast junction diam 8 mm

Input air pressure: 6 bar (0.60 MPa)

Air quality: dry air in accordance to DIN 8573-1 with dew point + 3° C not lubricated

#### Electric connection

Nominal voltage: 380 Vac

Nominal frequency: 50 Hz / 60 Hz

Nominal power requirements: 12 KW

Machinery Directive 2014/30/EU, Electromagnetic compatibility CEE 2004/108/CE Standard tests EN61000-6-4:2007+A1:2011, EN61000-6-2:2005
